The United States spends a greater proportion of its gross domestic product on health care than any other country in the world yet often fails to provide high-quality and efficient care. At the same time, satisfaction among primary care physicians has waned amid the increasing demands of office-based practice. There has been growing concern that current models of primary care will not be ...As Medicaid spending continues to overwhelm state budgets, the medical home model of care offers one method of transforming the health care delivery system. Medical homes can reduce costs while improving quality and efficiency through an innovative approach to delivering comprehensive patient ...Issue Brief November 2010 Scaling Up: Bringing the Transitional Care Model into the Mainstream Mary D. Naylor and Julie a. Sochalski ABSTRACT: Elderly, chronically ill people experience frequent changes in health status that require transitions among health care providers and settings.
